

FloVent[®] R120

Metal Roofing Ridge Vent

Peel, Stick and Done!

A simple solution and easy install for varying roof profiles. Protect your building and prolong the life of your roof with FloVent R120.

The polyether foam construction prevents weather element damage by compressing and conforming to every void between the ridge cap and the roof panel.

Fits any roof panel configuration and can be used with any manufacturers ridge cap.

- Fits many profiles
- Increases the longevity of metal roofing
- Contractor friendly
- Easy installation with continuous adhesive strip
- Can be installed on the ridge cap or on the roof
- Fire retardant & UV stable
