

Wedge Anchor

The ideal choice for creating a secure anchor for objects in concrete. When installed into a pre-drilled hole in the concrete and tightened, the wedge anchor expands and becomes securely anchored. Available in multiple diameters and lengths to suit varied concrete fastening applications.

- Carbon steel, zinc-plated
- Creates a secure anchor as wedge expands
- Ideal to anchor objects in solid concrete or grout-filled concrete masonry
- One-piece grip ensures uniform holding capacity that increases as tension is applied
