

Green Polyester Banding

Our green embossed polyester PET strapping is an alternative to steel strapping for your metal or lumber packages. The advanced performance of polyester straps absorbs high impact, has faster heat sealing, never any rust, and it has no sharp edges. This makes it safer to handle than steel. The green PET strapping can be secured using metal seals or sealless joining using a manual or battery powered hand tool. Tools & metal seals are sold separately.

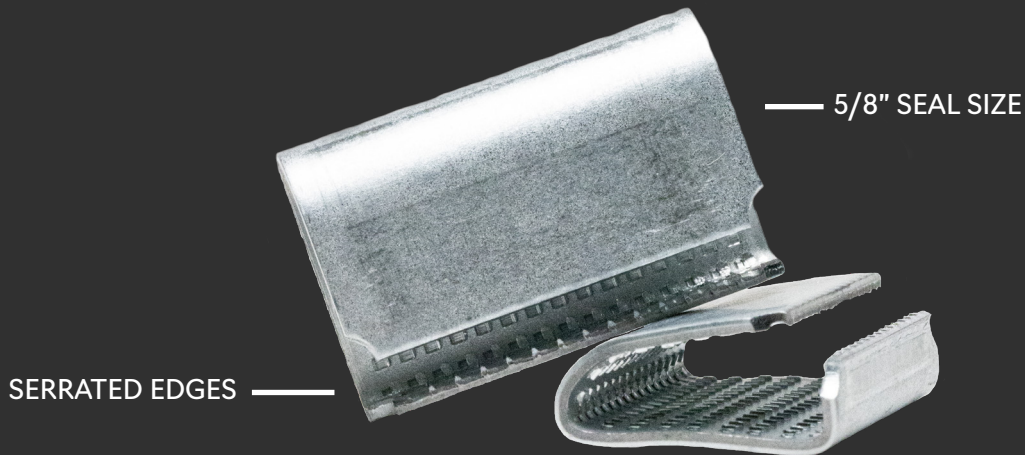

Green Polyester Banding

Item #	Description	Length	Width	Pcs/Pallet	Lb/Pallet
PET58035	5/8" x .035" x 4,000', 16x6 Polyester Green Embossed Banding	4,000'	0.6181"	28	957.60

Our open galvanized metal seals for polyester or PET strapping have a serrated design on the inside of the seals so that it grips into the strap when crimped with the sealer. Our serrated seals are designed to be used with a sealer or crimper, forming a heavy duty grip on polyester strapping. Only compatible with a 5/8" deluxe strapping sealer.
